SPRING/SUMMER 25 THE QUEST

We continue to manoeuvre through a time of polycrisis with increasing uncertainties across global politics, economics and our environment. This sinister reality paints a fatal outlook of the future and meets with a sharp decline in communal faith. However, for SS25 we will not see this desperate moment of depression as lost time, but rather as a knock on the door for a mass spiritual awakening and a new creative renaissance. Why? Because since we do not get what we want, we are forced to look further and focus on the light at the end of the tunnel. We begin to follow the mythical force from within to quest for ultimate meaning and ultimate purpose in order to discover our own deeper nature and that of reality around us. We become more loving, see more deeply, and contribute in a more profound way to our future and life itself.

As a result, SS25 will become a quest, meaning that we will find a direction with the mind and receive guidance through the heart. For tomorrow, as more and more unexpected challenges arise, we will need to deeply anchor ourselves in this stance, where we can use whatever comes as a turning point to flourish and explore new ways. By combining logic and empiricism with mystical awareness and intuition, we will find more innovative, highly interconnected, and ultimately more successful pathways. Our quest will reconnect us to our senses and emotions and to open up to new excitement without sacrificing the need for well-being and togetherness.
