FORECAST

Neo-Retro.

For Fall 24/25, kidswear pants are taking a nostalgic turn with a contemporary twist, merging 90s streetwear with modern practicality. Expect to see looser silhouettes, with baggy and relaxed fits dominating the scene. These styles provide the perfect backdrop for the resurgence of sneakers, allowing kids to move freely and stylishly. Cropped lines add a fresh, playful edge, emphasizing versatility and ease.

Tailored pieces are not left behind; instead, they are reimagined to be comfortable and fun. Think bumpy textures and low-rise flares, blending the sophistication of old money with a kid-friendly approach. These designs ensure that children not only look great but also feel at ease, whether they are at play or attending a special occasion. This season's pants for kids are all about combining the best of retro aesthetics with modern-day comfort and functionality.

This forecasting report is realized crossreferencing LIVETREND data from several sources to empower the expertise of our Trend Analysts to forecast the trends with concrete and quantitative information. Find the related data sources and icons on the last slides.
