UPDATE

Lady Whims. Spring/Summer 2025 brings an intriguing evolution to women's skirts, with a delightful twist on familiar silhouettes. Midi and long skirt are performing the most in the market now and new maxi skirts are announcing their way with voluminous A-line designs that exude drama and elegance, while the micro trend of bubble hems offer playful variations on classic shapes. Wide pleats add a sophisticated touch to the academic skirt, elevating its traditional charm with a modern, ladylike flair. Meanwhile, the micro tutu skirt makes a nostalgic nod to the early 2010s, celebrating a style that capture the imagination and add a playful bounce to any outfit for the young market. In Spring/Summer 2025, women's skirts offer a diverse array of options, blending timeless elegance with contemporary trends for a fresh and dynamic wardrobe update.

This report is based on Livetrend data crossreferencing Instagram and Consumer Interest, analysing the magnitude and visibility growth year on year with a percentage. Find the related legend on the last slides.
