FORECAST

Traditional Form & Contemporary Notions. For FW 25/26, lingerie is stepping away from the sexy styles of previous seasons but also takes the craze for super essential basics further. The season focuses on looks that balance the two previous direction with a more elevated sense of sensuality. Lingerie proposes sophisticated yet comfortable styles for the next fall/winter. The plunging neckline takes over across bras, bodies and dresses while the button-up detail adds a comforting loungewear element. A more nostalgic femininity shimmers through in dainty bandeau styles and bustiers, balconettes and bloomers with dainty bows and lace-ribbon trims. While romantic flounce details add a subtly maximal sense of femininity, their interpretations remain soft and layed-back. New layering takes over from strappy styles in a more toned-down sensuality and unlayered lace designs take over from the fully sheer trend for a slightly more elaborate and dreamy allure of new linear and graphic floral designs.

This forecasting report is realized crossreferencing LIVETREND data from several sources to empower the expertise of our Trend Analysts to forecast the trends with concrete and quantitative information. Find the related data sources and icons on the last slides.
