FASHION SHOWS

Cool Volumes & Ladylike Slimlines. For FW25 pants, trousers are up 4% and denim increasing by 8% compared to FW24. Tailored styles remain relevant, especially on low-rise waists. Volumes explore balloon-like, almost harem-inspired silhouettes. While slimmer, cropped silhouettes and leggings emerge as the new slim alternative, replacing the flares of previous seasons - for a modern ladylike appeal. Leather takes a more commercial turn, while denim experiments with folded hems and dazzling embellishments. Niche highlights include mini shorts, as well as the emergence of riding breeches, adding a historic equestrian twist when styled in boots.

This forecasting report is based on Data extracted from 197 International fashion shows of NY, London, Milan and Paris with 45 000 products analyzed. The trends are organized by visibility (number of looks presenting the trend attribute) and the percentage shows the trend growth compared to FW24 fashion shows.
