FASHION SHOWS

Ladylike Refinement & Joyful Girliness. For FW25, skirts see a -7% decline compared to FW24, yet the season embraces femininity to stay relevant. High-waisted skirts regain prominence, enhancing a ladylike appeal, similarly to chic A-lines and tailored suit sets. Slinky slip skirts and low-waist column silhouettes introduce a sultry yet sophisticated edge, balancing fluidity with minimalism. On the bolder side, frivolous mini skirts and dazzling pencil styles inject a sense of eccentricity and fun, making statement dressing a key focus. Meanwhile, sheer skirts and leather designs rely on streamlined silhouettes, allowing fashion-forward materials to take center stage.

This forecasting report is based on Data extracted from 197 International fashion shows of NY, London, Milan and Paris with 45 000 products analyzed. The trends are organized by visibility (number of looks presenting the trend attribute) and the percentage shows the trend growth compared to FW24 fashion shows.
